## The Libra Double Kayak

Here is a double kayak designed for performance. The sleek, graceful hull moves effortlessly, even in rough conditions. It takes a full load of gear with little appreciable change in handling. Heavy-weather performance is exceptional and the bow paddler will experience a dry ride in all but the roughest seas.

A combination of speed, low windage and tracking has made the Libra an overwhelming favorite of many couples. If you are considering a medium-volume, double touring kayak, paddle a Libra and discover a new world of performance.
